Student Affairs Technology Policy

Title	Technology Solutions Policy	Approved Version	2.0
Reference	Technology Solutions Proposal	Next Review Date	June 2026
Owner	Vice President Division of Student Affairs	Date of Publication	June 2025

Policy

The design, configuration, and implementation of technology solutions within the Division of Student Affairs shall be a collaborative process led and coordinated by the Technology Services team. Whenever feasible, solutions will be designed to support multiple departments or leverage existing university systems to promote efficiency, consistency, and integration.

Exceptions to this policy may be granted with the approval of the appropriate management team. This policy does not supersede, in part or in whole, any policies established by the Office of Information Technology (OIT). It is intended to align with and complement university-wide technology governance and standards.

Purpose and Description

Existing and new business processes will be regularly evaluated to identify opportunities where technology can enhance, automate, or streamline service delivery. The objective is to implement technology solutions that effectively meet service requirements, provide optimal value, and integrate seamlessly within the existing technology environment.

This Technology Solutions Policy is intended to establish standards for the delivery of systems and services, while maintaining flexibility to accommodate diverse needs and evolving circumstances.
