Policy

All web pages associated with the Division of Student Affairs must be created and maintained by the Student Affairs Marketing and Communications team, using approved tools and processes. All web content must adhere to Florida Atlantic University standards and align with recognized industry best practices. Any exceptions to this policy require prior approval from the Director of Student Affairs Marketing or appropriate management team.

This policy does not supersede, in part or in whole, any existing policies or guidelines set forth by the Office of Information Technology (OIT) or the Office of University Communications. It is intended to complement and support university-wide standards for web governance, accessibility, branding, and security.

Purpose and Description

This policy is intended to ensure the delivery of consistent content, structure, and navigation across all Student Affairs web pages. All web pages will be designed to present information and navigational elements using language and structure that reflect students' expectations and understanding of services at Florida Atlantic University.

The purpose of this Web Site Management Policy is to establish clear standards for the visual design, user experience, and informational flow of Student Affairs web pages. These standards are meant to support a cohesive and accessible digital presence, while maintaining flexibility to meet the diverse needs of individual departments and programs.
