

Own Agency Placement (OAP) - Policy

Overview:

Traditionally, Social Work field placements are educationally focused, unpaid training experiences in social work settings which are selected on the basis of the student's level and/or concentration in their program of studies. There are rare situations, however, where a student may be employed in a social work setting which meets the standards for a field placement, and which can be accepted by the Office of Field Education as an own agency placement for either a BSW or MSW student.

The student cannot utilize his/her current paid employment as the field placement but could possibly complete the field placement in another department or aspect of the agency. The agency must be large enough for the separation of the student's current job responsibilities and the proposed field placement social work activities. For example, a student who works as a medical clerk in a hospital could potentially complete his/her field placement in the social work department working with oncology patients.

The guiding principle for the decision to accept an Own Agency Placement is that the field placement experience must constitute new learning, appropriate BSW/MSW supervision for student level, and an opportunity to apply theories and knowledge from the classroom in a practice setting. This **new learning opportunity** must meet our established guidelines for field placements.

An Own Agency Placement may only be utilized as a field placement site when **all** of the requirements below are met:

Requirements for an Own Agency Placement-OAP

- The proposed agency must meet the same criteria as other approved School of Social Work field agencies as stated in the standards set by the Council on Social Work Education (CSWE).
- The agency must be large enough and sufficiently diversified so that the activities must constitute new learning for the student: i.e., a new population, new treatment modalities/methodologies, new field of practice. It must also be located in a different department/unit, different floor, or different site from current position as employee.
- The activities must be congruent with the student's concentration or level (undergraduate/graduate) in the program.
- Students are allowed to do only one field placement at their agency of employment.
- Students must submit the attached application for approval of an Own Agency Placement to be reviewed by the Coordinator of Field Education and Director of the School of Social Work.
- All of the required field hours must take place under the supervision of a new (to the student) BSW or MSW qualified field instructor. The field instructor must meet the standards of our program.
- If the field instructor has never supervised a BSW or MSW student before and/or has never taken formal State of Florida field instructor training, the field instructor is required to attend the School of Social Work's Field Instructors' Supervisory Training (FIST) for 16 hours.

Own Agency Placement (OAP) - Proposal

Review "Policy for Own Agency Placement" prior to beginning this proposal.

The proposal must be completed and submitted to the Field Faculty at the time of your field interview so that the application can be reviewed, approved or disapproved by the Field Faculty and the Coordinator of Field Education, and the decision communicated to the student in a timely manner.

This proposal must be completed by the student and the proposed field instructor.
