Resource Highlight: Utilizing Your Success Network

All FAU students have a “Success Network” team that was created for each individual. Your team consists of university faculty and staff who are here to support you throughout your degree. It is recommended to become familiar with the team members in your Success Network. To locate your Success Network, you can download the Navigate 360 app or log in through your MYFAU online portal (myfau.fau.edu).

Once you have located your Success Network, you can find the names and contact information for the team members and schedule appointments. You can set up appointments your professors to connect to discuss your status in a course or inquire about helpful resources. Your personalized team also includes contacts from: Academic Advising to review credits earned/in-progress and plan for courses for your major, the Career Center to explore majors and career paths to internships/job opportunities, and Financial Aid to assist with information on financial aid packages.

Your success network is there to support you throughout your educational journey. [Log in today](#) to learn who is in your network!

Major Spotlight: Mathematics

Did you know?
