DRAFT Inclusions to FAIR Definitions

Teaching

Community- Engaged Teaching: Curricular activities that connects students and faculty with activities that address community-identified needs through mutually beneficial partnerships that deepen students' academic and civic learning. Examples may include experiential-learning courses such as academic service learning, internships, and educational field experience.

Research

Community- Engaged Research: A collaborative process between the researcher and community partner that creates and disseminates knowledge and creative expression with the goal of contributing to the discipline and strengthening the well-being of the community. Community-engaged research (CER) identifies the assets of all stakeholders and incorporates them in the design and conduct of the different phases of the research process.

Service

Community Engaged Service: The application of one's professional expertise in collaboration with the community that addresses a community-identified need and supports the goals and mission of the university and the community.
