Dear Professor Eason,
Members of the CS UPC have reviewed the new courses
1. New Course (2 Items) - *DIG 3725C 3D Video Game Design*
2. New Course (2 Items) - *DIG 3773C Immersive Media for Games and VR*
proposed by your department and approve them. You have our support.
Best wishes,
Nurgun Erdol, Ph. D.
Professor and Chair
Department of Computer and Electrical Engineering and Computer Science

Dear Dr. Erdol,

I hope this email finds you well and apologies for sending this to you as I couldn't find who the UPC rep is for CEECS. Feel free to forward

my email and the attachments to the faculty that may assist further.

To get right to the point, we have a new faculty member that is looking to work with VR, aside from what's included in our general interactive

multimedia courses. Today, COAL UPC met and decided that the new courses should be reviewed by CEECS before moving onto UUPC.

We did however move to approve the courses pending CEECS review/support. Therefore, we want to be certain that there are no discrepancies

with CEECS. If there are no issues with these new course proposals, then an email or letter of support should be enough to move forward.

If there are issues with the courses and additional information is needed, just let me know. Included herein you will find the syllabi, justifications,

and new course forms. As an FYI, UUPC will meet 01.04.19 and agenda items are due 03.21.19.

1. New Course (2 Items) - *DIG 3725C 3D Video Game Design*
2. New Course (2 Items) - *DIG 3773C Immersive Media for Games and VR*
3. Justifications (1 item)

Your assistance and support is appreciated.

Cheers,

-Shane
