Subject: Approval of Mission to Mars Course for IFP

Dr. Sarajedini,

This is to inform you that the Core Curriculum Committee approved the "Mission to Mars" course for inclusion in the Science and the Natural World IFP Foundation area. As discussed in the CCC meeting, the course must be a 1000 or 2000 level course upon final institutional approval.

Please contact me if you have any questions or need any additional confirmation for the course as it moves through the approval process.

It has been a pleasure working with you and I hope we have further opportunities to work together in the future.

Thank you,

T.
