

Jerry,

Yes, I'll send you the message I received yesterday from Michael Whitehurst. The graduate version of this was discussed at the Graduate Programs Committee meeting yesterday. Exercise Science had some questions about it, but Mike Zourdos said he was happy with the responses and that they would support the course. I assume this will also apply to the undergraduate version.

Steve

Steve,

Did you ever get any comments from Exercise Science on this?

Steve,

It would be helpful if you could obtain comments from Exercise Science to see if they have any issues with this course potentially overlapping any of theirs.

Subject: New Course Proposal

Hi Steven,

Sorry for the late response regarding your new course proposal. My colleague, Dr. Michael Zourdos, will be attending the curriculum committee meeting today during which time your course proposal will be discussed. I know that Dr. Zourdos has a couple of content related question for your representative. I don't think there is a problem, but some clarification is needed. Thanks,

Mike
