Subject: RE: Updates for two combined programs in Exercise Science

Hi Maria:

Since the department is removing the additional prerequisites, the GPA requirement needs to be raised to 3.25. Once the GPA requirement has been raised to 3.25, then it is approved by the provost's office to move forward through the committee process. If you have any questions or concerns, please let me know.

Best,
Debra

Subject: Updates for two combined programs in Exercise Science

Hello Deb,

Happy St. Patrick's Day! I hope you're having a great day.

I received changes for two combined programs for the March 28 UUPC meeting. They are attached. They are basically changing the amount of credits students can count toward both programs from 9 credit to 12 and eliminating the prereqs. required to get into the graduate program because the regular graduate program is removing those as well.

Please review these and let me know if they meet your approval.

Thanks a million,
Maria
