| <p><b>Please explain the requested change(s) and offer rationale below or on an attachment</b></p> <p>The College of Nursing stopped offering all the courses that were cross-listed in the gerontology certificate housed in the Health Administration program. Hence, we propose a few changes to allow our students to obtain their certificate in a timely manner. The number of core credits will include Health Administration courses only and will increase from 6 to 9. There are no new courses from Health Administration; two elective courses have been simply shifted to the core course group.</p> <p>The number of elective credits will decrease from 9 to 6 and will include 2 new courses from the Department of Exercise Science and Health Promotion and a new course from the Department of Psychology.</p> <p style="text-align: right;">3/10/22</p> |   |  |
