Hi Hanqi:

I have no objections to the proposed changes.

Thank you!

Best Regards:

Tamara

Hi Tamara,

The list of courses in our cybersecurity program is somehow too rigid. We want to add a line in the catalog for the cybersecurity program so students can take other cybersecurity courses to fulfil the requirements. Please approve this change. If you have questions, please let us know.

Best,

Hanqi

That should be fine with us.

Maybe later, our crypto people will look at a similar policy for the math version.

S.

Hi Steve,

We only allow students to replace CS courses with CS courses, which should not have impact to math courses.

Best,
Hanqi

Hanqi,

Our crypto people are a little concerned that students may be given exemptions or substitutions so that they take no courses from our department.

Stephen
