Dear Bill:

Good chatting with you. With this email I confirm that the Physics Department has no objection to the Honors College offering PHY2053 and PHY 2054.

All my best, --Luc

**Subject:** WHC course proposals for physics

Dear Luc,

The Wilkes Honors College is in the process of proposing Honors PHY2053 "College Physics 1" and PHY2054 "College Physics 2" to be added to the curriculum here. Do you have any objections to us teaching it at the HC? Please send us an email confirming that you have no objections.

Thank you,

Bill
