Good morning - I have reviewed the syllabus, and Biology has no similar courses. We have no objection to this course going forward.

Best,

Dr. Sarah L. Milton
Professor and Chair
Department of Biological Sciences
FAU

Subject: A new course in the School of Criminology and Criminal Justice

Good morning Valery and Sarah,

My name is Seth and I am the Undergraduate Program Coordinator in the School of Criminology and Criminal Justice. I saw on FAU's website that you are a Dean and Chair in the Biology Department. Can you direct me toward someone who can help me (perhaps it is one of you).

In the School of Criminology and Criminal Justice, we have offered CJE 3674 Introduction to Forensic Science for a number of years and it is very popular among our majors. More recently, we have offered an advanced forensic science a couple times as a special topics class and would like to add it to our roster of course offerings. To do that, we have to seek the approval of programs that may be impacted by the new course offering.

Here's where you all come in. I have attached a copy of the course syllabus for your review. As we navigate the process of getting the course listed, we would like to acknowledge your review and blessing to offer the class. Is that something you could do or could you direct me to the person who can?

Thanks,

(PS I have included the Associate Dean of the College of Social Work and Criminal Justice, Director, Assistant Undergraduate Program Coordinator, and Program Assistant in the School of Criminology and Criminal Justice. These folks are helping me process this new course request.)

Seth Wyatt Fallik, Ph.D.

Undergraduate Program Coordinator &

Associate Professor

FAU School of Criminology & Criminal Justice
