## Academic Service Learning (AS-L) Designated Course

**ACADEMIC SERVICE-LEARNING STATEMENT:** This course is designated as an “academic service-learning” course. The assistance you provide to the agency/organization during your academic service-learning (AS-L) experience is a service to the community and will allow you to apply knowledge from the course to local, national, and/or global social issues. Throughout this course you will be participating in AS-L activities while demonstrating civic engagement at campus, local, national, and/or global community levels. You will also reflect on your AS-L experience and the impact on the community as well as your professional development. Academic service-learning notation of hours will post to your transcript with submission of hours to your faculty instructor and completion of the required survey. **Please click on the following link** after submitting your hours to complete the Academic Service-Learning Post-Survey. Assumption of Risk Statement for Student I understand that there are certain physical risks inherent in every form of service-learning. I understand the risks associated with this Academic Service-Learning assignment. I nonetheless agree to assume those risks so as to gain the benefits from participation in this valuable learning experience. I hereby release the State of Florida, the Board of Trustees, Florida Atlantic University and its agents and employees from any and all liability associated with my participation in this assignment at Florida Atlantic University.

## Course Evaluation Method

Your final grade in this course is based on four components that reflect both your work at your internship site and your engagement in the professional development side of the course. Because this is now a **graded** internship course, each part matters and contributes to your overall performance.

### Canvas Assignments – 10%

These include the discussion boards, reflections, check-ins, and any short written assignments posted in Canvas. All Canvas assignments must be submitted by the deadline unless prior arrangements have been approved.

### Workshop Attendance & Participation – 5%

There are five required in-person professional development workshops throughout the semester. Attendance is part of your grade. Missing a workshop without documentation will affect this portion of your grade.

**Final Posterboard Ceremony – 20%**

This is the capstone event for the course. You will create and present a professional poster summarizing your internship experience. Attendance and participation at the Final Posterboard Ceremony are required. Failure to attend without legitimate, documented circumstances will significantly impact your final grade.

**Internship Site Experience – 65%**

This includes your completion of required hours, professionalism on site, communication with your supervisor, quality of work performed, and your final supervisor evaluation. Students are expected to represent FAU professionally and meet all expectations set by their agency.

Category/Assessments	Weight (% of total grade)
Internship Site Experience	65%
Canvas Assignments	10%
Workshop Attendance & Participation	5%
Final Poster Board Ceremony	20%
Total	100%

**Code of Academic Integrity**

Students at Florida Atlantic University are expected to maintain the highest ethical standards. Academic dishonesty is considered a serious breach of these ethical standards, because it interferes with the university mission to provide a high quality education in which no student enjoys an unfair advantage over any other. Academic dishonesty is also destructive of the university community, which

is grounded in a system of mutual trust and places high value on personal integrity and individual responsibility. Harsh penalties are associated with academic dishonesty. For more information, see [University Regulation 4.001](#).

---

### **Attendance Policy Statement**

Students are expected to attend all their scheduled University classes and to satisfy all academic objectives as outlined by the instructor. The effect of absences upon grades is determined by the instructor, and the University reserves the right to deal at any time with individual cases of non-attendance. Students are responsible for arranging to make up work missed because of legitimate class absence, such as illness, family emergencies, military obligation, court-imposed legal obligations, or participation in University-approved activities. Examples of University-approved reasons for absences include participating on an athletic or scholastic team, musical and theatrical performances, and debate activities. It is the student's responsibility to give the instructor notice prior to any anticipated absences and within a reasonable amount of time after an unanticipated absence, ordinarily by the next scheduled class meeting. Instructors must allow each student who is absent for a University-approved reason the opportunity to make up work missed without any reduction in the student's final course grade as a direct result of such absence.

---

### **Religious Accommodation Policy Statement**

In accordance with the rules of the Florida Board of Education and Florida law, students have the right to reasonable accommodations from the University in order to observe religious practices and beliefs regarding admissions, registration, class attendance, and the scheduling of examinations and work assignments. University Regulation 2.007, Religious Observances, sets forth this policy for FAU and may be accessed on the FAU website at [www.fau.edu/regulations](http://www.fau.edu/regulations). Any student who feels aggrieved regarding religious accommodations may present a grievance to the executive director of The Office of Civil Rights and Title IX. Any such grievances will follow Florida Atlantic University's established grievance procedure regarding alleged discrimination.

### **Time Commitment Per Credit Hour**

---

For traditionally delivered courses, not less than one (1) hour of classroom or direct faculty instruction each week for fifteen (15) weeks per Fall or Spring semester, and a minimum of two (2) hours of out-of-class student work for each credit hour. Equivalent time and effort are required for Summer Semesters, which usually have a shortened timeframe. Fully Online courses, hybrid, shortened, intensive format courses, and other non-traditional modes of delivery will demonstrate equivalent time and effort.

---

### **Course Grading Scale**

Letter Grade	Letter Grade
A	94 - 100%
A-	90 - 93%

## Grade Appeal Process

You may request a review of the final course grade when you believe that one of the following conditions apply:

- There was a computational or recording error in the grading.
- The grading process used non-academic criteria.
- There was a gross violation of the instructor's own grading system.

[University Regulation 4.002](#) of the University Regulations contains information on the grade appeals process

---

## Policy on Make-up Tests, Late work, and Incompletes

### Late Assignments

Late work will not be accepted without a university recognized excuse. Students must e-mail me to inquire whether or not late work will be accepted.

### Incomplete Grade Policy Statement

The University policy states that a student who is passing a course, but has not completed all work due to exceptional circumstances, may, with consent of the instructor, temporarily receive a grade of

incomplete (“I”). The assignment of the “I” grade is at the discretion of the instructor, but is allowed only if the student is passing the course.

---

### **Policy on the Recording of Lectures**

Students enrolled in this course may record video or audio of class lectures for their own personal educational use. A class lecture is defined as a formal or methodical oral presentation as part of a university course intended to present information or teach students about a particular subject.

Recording class activities other than class lectures, including but not limited to student presentations (whether individually or as part of a group), class discussion (except when incidental to and incorporated within a class lecture), labs, clinical presentations such as patient history, academic exercises involving student participation, test or examination administrations, field trips, and private conversations between students in the class or between a student and the lecturer, is prohibited.

Recordings may not be used as a substitute for class participation or class attendance and may not be published or shared without the written consent of the faculty member. Failure to adhere to these requirements may constitute a violation of the University’s Student Code of Conduct and/or the Code of Academic Integrity.

### **Artificial Intelligence Preamble**

FAU recognizes the value of generative AI in facilitating learning. However, output generated by artificial intelligence (AI), such as written words, computations, code, artwork, images, music, etc., for example, is drawn from previously published materials and is not your own original work.

FAU students are not permitted to use AI for any course work unless explicitly allowed to do so by the instructor of the class for a specific assignment. **[\[Policy 12.16 Artificial Intelligence\]](#)**

Class policies related to AI use are decided by the individual faculty. Some faculty may permit the use of AI in some assignments but not others, and some faculty may prohibit the use of AI in their course entirely. In the case that an instructor permits the use of AI for some assignments, the assignment instructions will indicate when and how the use of AI is permitted in that specific assignment. It is the student’s responsibility to comply with the instructor’s expectations for each assignment in each course. When AI is authorized, the student is also responsible and accountable for the content of the work. AI may generate inaccurate, false, or exaggerated information. Users should approach any generated content with skepticism and review any information generated by AI before using generated content as-is.

If you are unclear about whether or not the use of AI is permitted, ask your instructor before starting the assignment. Failure to comply with the requirements related to the use of AI may constitute a violation of the

**[Florida Atlantic Code of Academic Integrity, Regulation 4.001.](#)**

**Proper Citation:** If the use of AI is permitted for a specific assignment, then use of the AI tool must be properly documented and cited. For more information on how to properly cite the use of AI tools, visit <https://fau.edu/ai/citation>

### **Professor Rubin's Artificial Intelligence Policy**

AI tools, such as ChatGPT, Claude, or image generators, are rapidly becoming part of education, work, and daily life. In this course, AI can be a valuable learning aid, but it can also undermine your growth if it replaces your own thinking. The goal here is to help you build skills you can't outsource to an algorithm, like critical thinking, analysis, and the ability to communicate your own ideas.

Your work must reflect your own thinking, writing, and analysis. I design assignments to see what you can do, not what an AI tool produces. Some assignments will prohibit AI use entirely; others may allow it for specific purposes (like brainstorming, outlining, or exploring alternative explanations). If AI use is permitted, I will say so clearly in the instructions.

#### **When AI is allowed, you must:**

- State which tool you used and for what purpose.
- Treat it like any other source. If it shapes your work, you cite it.
- Ensure the final product is still your own original work.

Using AI in any way I have not authorized, or submitting AI-generated work as if you created it yourself, is an academic integrity violation and will be handled accordingly.

#### **What this means in practice:**

- **Allowed:** AI use when explicitly permitted in the assignment; using it to brainstorm, outline, or clarify concepts (with citation); supplementing, not replacing, your own work.

- **Not allowed:** Using AI when instructions say “no AI”; submitting AI-generated text as your own; having AI write graded work; “lightly editing” AI output to pass it off as original.

**If you’re unsure whether something is okay, ask me before you do it.** “I didn’t know” will not be an acceptable defense after the fact. AI can be a partner in learning, but the work you submit must always be yours.
