Catalog Entry

The Department of Sociology's Health, Health Care, & Social Services Concentration prepares students for careers in health and social services-related fields through developing relevant background knowledge and analytical skills. The concentration includes courses from subfields in Sociology focused on health and illness, mental health, aging, disability, the health care industry, and related social policy issues like poverty and housing. Students in this program take courses that include topics relevant to a wide variety of health and social services professions and develop the skills to pursue educational and career opportunities in those areas.

Concentration within the Sociology Major

Health, Healthcare, and Social Services: Take at least 12 credits from courses marked *. All courses must be completed with a minimum of 'C+' to count towards the concentration.
