Subject: Re: MAP 2192 for BSAI with Philosophy

Hi Hari,

Thank you for reaching out. MAP 2192 is a course that we regularly offer in every fall and spring semester. We welcome students from all programs to enroll, and we'll ensure that the course continues to be available and appropriately resourced to support all students.

Please let me know if you need any additional information regarding the course.

Best regards,
Yuan

Hi Yuan, we are proposing a new degree program BSAI with Philosophy. We have included Mathematics of Data Science (MAP 2192) in the curriculum. I believe this course is already being offered regularly. The projected enrollments for the new program are 20 in year 1 and increasing to 100 in year 5. According to our flight plan students are expected to take this in Fall semester of the second year. We are targeting a Fall 2026 start for this program and those students are expected to enroll in MAP 2192 in Fall 2027.

Let me know you have any questions or concerns.

Best,
Hari
