

Support from Nursing for removing the Nursing Technology track from the Biomedical Engineering BS program.

Hello Dr. Liu,

Thank you for sending the changes to remove the Nursing Technology track. I have no objections or concerns.

Regards,

Joy

Subject: Catalog Revision for BME Program – Approval to Remove Nursing Technology Track

Hi Dr. Longo,

My name is Yalan Liu, and I am the Chair of the Undergraduate Program Committee (UPC) in the College of Engineering and Computer Science.

Our college is currently developing a new **Biomedical Engineering (BME) program**. As part of this process, we reviewed and updated the catalog, which included removing the Nursing Technology track from the original version. The university requires confirmation from your college to ensure there are no objections or impacts related to this change. Before we can forward the proposal to the University Steering Committee, we need an email from you confirming that you're aware of and have no concerns about this removal.

Would you mind **replying to this email thread with a brief note confirming your approval for this change?** I've attached a clean version of the revised catalog for your reference. Please let me know if you'd like any additional context or specific catalog language — I'd be happy to provide it.

Thank you very much for your time and support.

Yalan
