Subject: Special Education Change in Student Teaching

Hi,
The undergraduate special education program would like to change the credits for Student Teaching from 4-9 to 3-12 effective Spring 2025. Currently students take two courses with their Student Teaching in the Spring semester. We are moving the two courses to semesters earlier in their sequence which will mean that students will need to take more credits if they are in residence or receiving financial aid. This will not impact the department as the same faculty member that would teach the course will continue to teach the course. Please reply and indicate that you have not conflict with the requested change to increase the credits.
Cheers,
Joe

Counselor Education supports your proposal.

You might consider changing your start date to Summer 2026 to allow more time to get through the approval process.
