### Course Description

This is the semester-long final field experience involving demonstration of competencies in assessment, strategic and tactical planning, instructional methods, curricula for academic, social, behavioral, vocational skill development, and collaborative consultation.

### Instructional Method

In person instruction within an approved K12 school is required. In addition to in-person teaching several in-person seminars will be held.

### Prerequisites/Corequisites

All required Education courses completed with a grade of "C" or better; programmed major; permission of advisor; overall G.P.A. of 2.5.

### Course Objectives/Student Learning Outcomes

Our coursework is guided by the Florida Standards, the Interstate Teacher Assessment and Support Consortium (InTASC) Standards, the Council for Exceptional Children (CEC) Standards, and CAEP Accreditation Standards. Student competencies developed through these standards are measured and demonstrated through mastery of the Florida Educator Accomplished Practices, which represent the core knowledge, skills, and professional behaviors expected of effective Florida educators.

Teacher Candidates will demonstrate proficiency in applying skills and behaviors in effective teaching, management, and collaboration. Teacher Candidates must demonstrate the Florida Educator Accomplished Practices through observations, coursework and interactions with stakeholders.

By the end of the course, teacher candidates shall successfully demonstrate the competencies as outlined in the Florida Educator Accomplished Practices.

The FEAP are based upon and further describe the following four (4) essential principles:

1. The effective educator creates a culture of high expectations for all students by promoting the importance of education and each student's capacity for academic achievement.
2. The effective educator demonstrates deep and comprehensive knowledge of the subject taught.
3. The effective educator exemplifies the standards of the profession.
4. The effective educator acknowledges that all persons are equal before the law and have inalienable rights, and provides instruction that is consistent with the principles of individual freedom as outlined in section 1003.42(3), F.S.

Effective educators apply these foundational principles through six practices. Each of the practices is clearly defined to promote a common language and statewide understanding of the expectations for the quality of instruction and professional responsibility.

1. Instructional Design and Lesson Planning

Course content and assessments focus on providing students with opportunities to think critically, master content knowledge, learn effective instructional strategies, and demonstrate teaching competence. All evaluation of student work is based solely on demonstrated skill and performance. Course materials do not distort significant historical events, promote identity politics, or endorse theories that systemic racism, sexism, oppression, or privilege are inherent in U.S. institutions.

## Classroom Etiquette Policy (if applicable)

If you have a particular policy relating to student behavior in the class, such as relating to tardiness or on the use of electronic devices in the classroom, state so here. Recognizing the unique relationship between faculty and student and adhering to the principles of academic responsibility, any such policies must be reasonable, non-discriminatory and not impede the educational mission.

### **Policy on the Recording of Lectures (optional)**

Because of a new Florida Statute in 2021, the following model language is suggested for inclusion in course syllabi, at the discretion of individual faculty:

Students enrolled in this course may record video or audio of class lectures for their own personal educational use. A class lecture is defined as a formal or methodical oral presentation as part of a university course intended to present information or teach students about a particular subject. Recording class activities other than class lectures, including but not limited to student presentations (whether individually or as part of a group), class discussion (except when incidental to and incorporated within a class lecture), labs, clinical presentations such as patient history, academic exercises involving student participation, test or examination administrations, field trips, and private conversations between students in the class or between a student and the lecturer, is prohibited. Recordings may not be used as a substitute for class participation or class attendance and may not be published or shared without the written consent of the faculty member. Failure to adhere to these requirements may constitute a violation of the University's Student Code of Conduct and/or the Code of Academic Integrity.

### **Attendance Policy**

Students are expected to attend all their scheduled University classes and to satisfy all academic objectives as outlined by the instructor. The effect of absences upon grades is determined by the instructor, and the University reserves the right to deal at any time with individual cases of non-attendance. Students are responsible for arranging to make up work missed because of legitimate class absence, such as illness, family emergencies, military obligation, court-imposed legal obligations or participation in university-approved activities. Examples of University-approved reasons for absences include participating on an athletic or scholastic team, musical and theatrical performances and debate activities. It is the student's responsibility to give the instructor notice prior to any anticipated absences and within a reasonable amount of time after an unanticipated absence, ordinarily by the next scheduled class meeting. Instructors must allow each student who is absent for a university-approved reason the opportunity to make up work missed without any reduction in the student's final course grade as a direct result of such absence.

### **Student Teaching Absences**

Students are expected to attend the student teaching orientation and all seminars.

Students who miss any of the mandatory seminars forfeit their ability to be considered for Early Release into a position prior to the end of the student teaching semester.

Absences exceeding three (3) days from the placement site must be made up in a manner approved in advance by the university supervisor, clinical educator, and the Director of School Engagement. This will result in an extension of the student teaching experience beyond the designated time frame.

## **Counseling and Psychological Services (CAPS) Center**

*Life as a university student can be challenging physically, mentally and emotionally. Students who find stress negatively affecting their ability to achieve academic or personal goals may wish to consider utilizing FAU's Counseling and Psychological Services (CAPS) Center. CAPS provides FAU students a range of services – individual counseling, support meetings, and psychiatric services, to name a few – offered to help improve and maintain emotional well-being. For more information, go to <http://www.fau.edu/counseling/>*

## **Disability Policy**

*In compliance with the Americans with Disabilities Act Amendments Act (ADAAA), students who require reasonable accommodations due to a disability to properly execute coursework must register with Student Accessibility Services (SAS) and follow all SAS procedures. SAS has offices across three of FAU's campuses – Boca Raton, Davie and Jupiter – however disability services are available for students on all campuses. For more information, please visit the SAS website at [www.fau.edu/sas/](http://www.fau.edu/sas/).*

## **Code of Academic Integrity**

*Students at Florida Atlantic University are expected to maintain the highest ethical standards. Academic dishonesty is considered a serious breach of these ethical standards, because it interferes with the university mission to provide a high quality education in which no student enjoys an unfair advantage over any other. Academic dishonesty is also destructive of the university community, which is grounded in a system of mutual trust and places high value on personal integrity and individual responsibility. Harsh penalties are associated with academic dishonesty. For more information, see [University Regulation 4.001](#).*

## **Code of Academic Integrity**

*Students at Florida Atlantic University are expected to maintain the highest ethical standards. Academic dishonesty is considered a serious breach of these ethical standards, because it interferes with the university mission to provide a high quality education in which no student enjoys an unfair advantage over any other. Academic dishonesty is also destructive of the university community, which is grounded in a system of mutual trust and places high value on personal integrity and individual responsibility. Harsh penalties are associated with academic dishonesty. For more information, see [University Regulation 4.001](#).*
