Subject: RE: Review of MOU and Curriculum Proposal

Hi Monica;
Congratulations! This is a great degree!
I have no objections. None of the Computer Science courses overlap with ours, since they are Engineering oriented IT courses, while ours are Business oriented IT courses.
Good luck moving forward!

Best Regards:

Tamara

Subject: Review of MOU and Curriculum Proposal

Dear Tamara,

I hope you are doing well. I'm reaching out to share the MOU that was approved by the Provost, along with the related curriculum proposal. Could you please review them and let me know if any of the courses from the Department of Computer Science overlap with those offered by your department?

I mentioned to Hari that before moving forward, I would like to have your input regarding the courses from his department. Dan and I will wait for your response before signing the MOU.

Mark, if you have any comments as well, please let me know.

Regards,

Monica
