Fall 2026

Please explain the requested change(s) and offer rationale below or on an attachment.

The new program, Bachelor of Science in Artificial Intelligence with Criminal Justice, is part of the university's AI +X initiative, which integrates artificial intelligence with other disciplines. This specific program combines AI and computer science with criminal justice aiming to prepare students with balanced training in AI/computer science and Criminal Justice to meet growing workforce demand at the intersection of social science and technology. It is jointly administered by the School of Criminology and Criminal Justice in the College of Social Work and Criminal Justice and the Department of Electrical Engineering and Computer Science (EECS) in the College of Engineering and Computer Science.

*All new programs and changes to existing programs must be accompanied by a catalog entry showing the new or proposed changes.

Bachelor of Science in Artificial Intelligence with Criminal Justice

(Minimum of 120 credits required)

Admission Requirements
All students must meet the minimum admission requirements of the University. Please refer to the Admissions section of this catalog.

The Bachelor of Science in Artificial Intelligence with Criminal Justice (B.S.A.I.) is a multi-college, interdisciplinary program jointly administered by the School of Criminology and Criminal Justice in the College of Social Work and Criminal Justice and the Department of Electrical Engineering and Computer Science (EECS) in the College of Engineering and Computer Science. This program aims to prepare students with balanced training in AI/computer science and Criminal Justice to meet growing workforce demand at the intersection of social science and technology.

Prerequisite Coursework for Transfer Students
Students transferring to Florida Atlantic University must complete both lower-division requirements (including the requirements of the General Education Curriculum) and requirements for the college and major. Lower-division requirements may be completed through an Associate in Arts (A.A.) degree from any Florida public college, university or community college or through equivalent coursework at another regionally accredited institution. Before transferring and to ensure timely progress toward the baccalaureate degree, students must also complete the prerequisite courses for their major as outlined in the *Transition Guides.*

All courses not listed with the Florida Statewide Course Numbering System that will be used to satisfy requirements will be evaluated individually on the basis of content and will require a catalog course description and a copy of the syllabus for assessment.

Degree Requirements
The minimum number of credits required for the Bachelor of Science in Artificial Intelligence with Criminal Justice degree is 120 credits: 36 credits in the General Education Curriculum, 24 credits in AI core, 15 credits in AI electives, 12 credits in Criminal Justice core, 21 credits in Criminal Justice electives, 6 credits in free electives, 3 credits in capstone course, and 3 credits in mathematics for AI. This degree will be awarded to students who satisfy all admission and degree requirements.

Students must attain a minimum grade of "C" in Mathematics of Data Science, AI Core, AI Electives, Criminal Justice Core, Criminal Justice Electives, and AI Capstone.

Foreign Language Requirement

All students must satisfy the foreign language requirement for admission to the University.
