Dear Doug,

On behalf of the sociology department, I have no objections to the new course being added to the curriculum. Looks like a good one!

Dear Laura,

History would like to propose a new course, LAH 3781: Health and Disease in Latin America. I attach the syllabus and new course form for your review. Can you let me know if Sociology has any objections to this course being added to the curriculum?

Thank you,

Doug

Subject: AMH 4353 and LAH 3781

Dear Doug:

I just heard from Will McConnell (Chair of CUPC) about two of our items for the upcoming CUPC meeting.

He thought it best that we contact Sociology (LAH 3781) and Political Science (AMH 4353) to do our due diligence regarding overlap, etc.

I've attached the requisite files to send to the Chairs.

I can make the requisite changes to the PDFs when the time comes.

Best,

Eric
