*WAC and General Education criteria must be clearly indicated in attached syllabus. For WAC Guidelines: www.fau.edu/WAC. Please attach General Education Course Approval Request: www.fau.edu/deanugstudies/GeneralEdCourseApprovalReq uests.php

CHANGE DESCRIPTION TO:
An introduction to the basic principles and practices of software engineering. The objective of this course is to expose students to a wide range of software engineering concepts and state-of-the-art technologies. Emphasis will be placed on learning and practicing software engineering principles through team course project, and gain appreciation of "programming in the large". Topics include both technical aspects and non-technical aspects of software engineering, such as software life cycle models, specification and design methods, implementation, and testing issues; specification and design methodologies, deployment and post maintenance. Students will complete a team project involving written and oral presentations and demonstrations.
