Memo From: Nancey E.M. France, PhD, RN, AHN-BC
Assistant Dean of Bachelor of Science in Nursing Program

Re: Proposal to remove prerequisite requirements from the RN-BSN track

The College of Nursing Bachelor of Science in Nursing (BSN) Program is proposing to remove the admission requirement in the RN-BSN track that all pre-requisites be completed prior to being admitted to College. This will allow students to be enrolled in the RN-BSN track and simultaneously complete the prerequisite courses. Advising will occur at the College level in order to assure that all requirements for graduation are met. Any course that requires prerequisites will not be affected as the prerequisites for that course will still need to be completed prior to registration. The rationale for this change is to ease the admission process in the RN-BSN track and to encourage enrollment.
