

Colleges/Schools outside of ESHP

1) College of Nursing

Good afternoon,

Thank you for contacting me. This looks like an excellent course. This course does not conflict with the course that we are currently teaching in the College of Nursing.

Best wishes,

Kay

2) School of Communication & Multimedia Studies

Hi Elise (and Mike)-

Thank you for your flexibility in the naming of this course. We are perfectly comfortable with either option 2 or 3 as listed below, and we would endorse the course with either of those titles. As I indicated initially, we do not see the course itself as duplicative with our courses or curriculum. Our hesitation was entirely based on the initial title, and either "Community Health Campaigns and Communication" or "Introduction to Health Campaigns and Communication" avoids our earlier concerns. We are fully supportive of the course moving forward with either of those alternative titles.

Again, thank you for checking with us and for your resourcefulness in responding to our concerns.

Sincerely,

David Cratis Williams, PhD
Director and Professor
