

Dear UUPC Committee,

The Office of International Programs is requesting with the permission of the respective departments (College of Science, College of Arts and Letters, College of Design and Social Inquiry, and the Honors College) to change the credit values for the study abroad courses listed below. We are requesting to go from the old credit values of 1-3 or 1-4 credits to 1-6.

The purpose of this request is to accommodate the credit values that our new partner institutions use. A few of our new exchange partners offer courses that are 5 and 6 credits and appear as such on the students transcripts when grades are sent back to FAU. By extending our current credit system for study abroad courses we simplify the registration process for students and faculty.

Please let us know if you have any questions. Thank you.
